The Neversink Farm Mutineer Interchangeable Hoe system allows you to easily carry multiple cultivation tools into the field or garden at once. Several head options are available for targeting thread-stage weeds, even in densely planted or low-lying crops. A unique handle allows the user to change heads quickly and easily without additional tools. This innovative tool was developed through a collaboration between Eliot Coleman and Conor Crickmore. Made in the USA.

Neversink Farm Mutineer Hoe Handle 7717

The foundation of the Neversink Farm Mutineer Hoe system. Simply pull down on the spring-loaded chuck, insert the hex shaft on the end of the interchangeable heads, and release the chuck to hold in place. Accepts all hoe heads below. Both a handle and a head are required for use; handle and heads are sold separately.

Neversink Farm Pacifist Wire Heads

Called the "Pacifist" because it eliminates thread-stage weeds without damaging your crop. The perfect tool for working around tender plants and drip irrigation. Select from two wire diameters: **Sharp:** 0.094" diameter wire. Ideal for smaller weeds. **Firm:** 0.125" diameter wire. Rigid for larger weeds.

7719 2" Wide, **Sharp**
 7769 2" Wide, **Firm**

7720 4" Wide, **Sharp**
 7770 4" Wide, **Firm**

7771 6" Wide, **Firm**
 7772 8" Wide, **Firm**

7764 Neversink Farm Pacifist Wire Head Master Kit

Includes all four firm-wired Pacifist Heads plus a carabiner for attaching to your belt loop.

Neversink Farm Pacifist Offset Wire Heads

These 4"-wide Pacifist heads feature an additional 1" offset for easily switching from cultivating between rows to the tighter spacing in-row. Select from two wire diameters.

7765 **Sharp**, 0.094" diameter wire. Ideal for smaller weeds.

7766 **Firm**, 0.125" diameter wire. Rigid for larger weeds.

Neversink Farm Collinear Hoe Heads

A new incarnation of our standard Collinear Hoe. Sharp blades allow for precise cultivation by slicing weeds at the soil surface. Especially useful with low-lying crops like head lettuce. Select from two widths.

7723 3¾" Wide
7724 7" Wide

7725 Neversink Farm Collinear Hoe Head Master Kit

Includes both Collinear Hoe Heads plus a carabiner for attaching to your belt loop.

Neversink Farm Torsion Weeder Heads

A great tool for cultivating on both sides of tight plantings at the same time. Select from two sizes on the basis of your cultivation needs.

- 7767 Small-diameter wire with 4" height clearance and 1" minimum spacing between tines.
- 7768 Large-diameter wire with 6" height clearance and 2" minimum spacing between tines.
